Justification: a) JSC SPE "Aerosila" is a Russian developer and manufacturer of various aircraft parts, such as engines, propellers and fans. JSC SPE "Aerosila" provides its products to domestic aviation manufacturers. The company's products are used to create military aircraft that Russian Aerospace Forces use in Russia's war of aggression against Ukraine. For example, unmanned aerial vehicle Orion's power unit APD-115T is equipped with an AV-115 propeller manufactured by JSC SPE "Aerosila". In addition, the Russian Federation has a special right ("golden share") of participation in the control of JSC SPE "Aerosila", which would allow the Russian Federation a decisive voting right over the other shareholders when adopting major decisions. b) JSC SPE "Aerosila" therefore supports and benefits from the Government of the Russian Federation, which is responsible for the illegal annexation of Crimea and the destabilisation of Ukraine. **Other information:** a) Type of entity: Joint Stock Company b) Place of registration: Russian Federation c) Date of registration: 22.1.1993 (state registration date 16.6.2002) d) Registration number: 1025005917023 e) Tax Identification Number: 5045002261 f) KPP: 504501001 g) Email: vint@aerosila.ru h) Telephone: (496) 642-33-30, 642-80-85 i) Website: <http://www.aerosila.ru> j) Associated individual: Pavel Gennadievich Tochilin (General Director) (TIN: 504501388297) **Modifications:** Listed on 24 Dec 2024

Justification: a) JSC "Kaluga Research Institute of Radio Engineering" (JSC KNIRTI) is one

of the main military-industrial companies in the Kaluga region. Among other activities, it researches, develops and produces navigational, meteorological, geodetic and geophysical instruments, and radar, radio navigation equipment and radio remote control equipment, including Khibiny, an electronic warfare system for fighter jets used in Russia's war of aggression against Ukraine. **b)** JSC KNIRTI is affiliated with JSC KRET, a company responsible for the production of weapons and military equipment as well as radio electronics. The official logo of JSC KNIRTI is similar to the patented logo of JSC KRET. JSC KRET's official website contains information on the Khibiny, which is produced by JSC KNIRTI. Moreover, JSC KNIRTI's official logo contains the patented logo of JSC KRET. **c)** Therefore, JSC KNIRTI is responsible for materially and financially supporting and benefitting from Russian decision-makers responsible for the illegal annexation of Crimea and the destabilisation of Ukraine. JSC KNIRTI is involved in economic sectors providing a substantial source of revenue to the Government of the Russian Federation. It is moreover associated with JSC KRET. **Other information:** **a)** Type of entity: Joint Stock Company **b)** Place of registration: Russian Federation **c)** Registration number: 1124011001058 **d)** Tax Identification Number: 4007017378 **e)** KPP: 400701001 **f)** Principal place of business: Russian Federation **g)** Additional information: JSC "KRET" (associated company)

Justification: **a)** FSE "Kamensky 'Combine'" is a chemical plant, mainly producing special-purpose chemical products for Russia's military industry, which produces weapons used by the Russian military. It is state-owned through Rostec (State Corporation for the Promotion of the Development, Manufacture and Export of High-Tech Products). It holds patents for technologies related to rockets and explosives. FSE "Kamensky 'Combine'" has been involved in the implementation of the Russian state defence orders and since 2022 the volume of state defence orders it receives has increased significantly. FSE "Kamensky 'Combine'" therefore materially supports actions which undermine the territorial integrity, sovereignty and independence of Ukraine. **b)** It is moreover an entity involved in economic sectors, namely the defence sector, providing a substantial source of revenue to the Government of the Russian Federation, which is responsible for the illegal annexation of Crimea and the destabilisation of Ukraine. **Other information:** **a)** Type of entity: Federal State Enterprise **b)** Place of registration: Russian Federation **c)** Registration number: 1066147003658 **d)** Tax Identification Number: 6147025090 **e)** KPP: 614701001 **f)** Website: www.fkpkk.ru **Modifications:** Listed on 24 Dec 2024

Justification: **a)** JSC "ODK-Star" is a developer and a serial producer of fuel-supply and control systems for air, ground and marine gas turbine engines. JSC "ODK-Star" is involved in the most important programmes of Russian engine building, including in the creation of D30-KP and PD-8 engines. D30-KP engines are installed on the military transport aircraft Il-

76, used by the Russian Armed Forces in Russia's war of aggression against Ukraine. United Aircraft Corporation has started to develop the technical design in order to use PD-8 engines in military transport aircraft (IL-212). JSC "ODK-Star" therefore supports and benefits from the Government of the Russian Federation, which is responsible for the illegal annexation of Crimea and the destabilisation of Ukraine. **b)** In addition, JSC "ODK-Star" is managed by the United Aircraft Corporation, an integrated structure specialising in the development, serial production and service maintenance of engines for military and civil aviation, space programmes and the navy, as well as the oil and gas industry and energy sector. Therefore, JSC "ODK-Star" is associated with the United Aircraft Corporation. **Other information:** **a)** Type of entity: Joint Stock Company **b)** Place of registration: Russian Federation **c)** Registration number: 1025900895712 **d)** Additional information: TIN: 5904100329 **e)** KPP: 590401001 **f)** Email: star@ao-star.ru **g)** Telephone: + 7 (342) 249-18-13 **h)** Website: <https://ao-star.ru/> **i)** Associated entity: Managed by the United Aircraft Corporation (registration number: 1067759884598) **Modifications:** Listed on 24 Dec 2024

Justification: **a)** PJSC "Stavropol Radio Plant Signal" is one of the main manufacturers of radio-electronic devices for the Armed Forces of the Russian Federation. It belongs to the Rostec State Corporation. Armed Forces of the Russian Federation use devices produced by PJSC "Stavropol Radio Plant Signal" such as remote-control platforms for PKT tank machine guns in Russia's war of aggression against Ukraine. PJSC "Stavropol Radio Plant Signal" upgraded the machine gun remote-control platform for the control of a 7,62 mm tank machine gun, designed in 2023, on direct request from the Russian military. In addition, PJSC "Stavropol Radio Plant Signal", together with the Russian Engineering Union and the North Caucasus Federal University, runs a training centre for highly qualified specialists in the mechanical engineering industry. **b)** PJSC "Stavropol Radio Plant Signal" therefore materially supports actions which undermine the territorial integrity, sovereignty and independence of Ukraine. **Other information:** **a)** Type of entity: Public Joint Stock Company **b)** Place of registration: Russian Federation **c)** Registration number: 1022601930537 **d)** Tax Identification Number: 2635000092 **e)** KPP: 263501001 **f)** Email: info@signalrp.ru **g)** Telephone: (8652) 77-98-35 **h)** Website: <http://signalrp.ru> **i)** Associated individual: Andrey Viktorovich Kocherga (General Director) (TIN 772740415741) **Modifications:** Listed on 24 Dec 2024

Justification: **a)** JSC Tula Machine Building Plant is a Russian defence manufacturer with a specialisation in the production of advanced military equipment, particularly in the domain of anti-aircraft weaponry and artillery systems. The company is responsible for the development and manufacturing of several key defence systems, including the KASHTAN

anti-aircraft missile and artillery system, the PALMA anti-aircraft artillery system, and a range of 30 mm automatic cannons and machine guns such as the Gryazev-Shipunov GSh-6-30 and the 2A72. These systems are integrated into various military platforms, including infantry fighting vehicles such as the BMP-3 and BTR-80A, and are also mounted on strategic assets such as the Kuznetsov class aircraft carrier. **b)** The company's products have been actively deployed in various military operations, including Russia's invasion of Ukraine, where several systems such as the BMP-3 infantry fighting vehicles and Pantsir-S1 surface-to-air missile systems were reported to have been destroyed. **c)** JSC Tula Machine Building Plant is therefore supporting materially actions which undermine and threaten the territorial integrity, sovereignty and independence of Ukraine. **Other information:** **a)** Type of entity: Joint Stock Company **b)** Place of registration: 300002, Russian Federation, Tula, Mosina str., 2 **c)** Registration number: 1027100507114 **d)** Tax Identification Number: 7106002836 **e)** Principal place of business: Russian Federation **f)** Email: sapr@tulamash.ru, sekretar@tulamash.ru **g)** Telephone: + 7 (4872) 55-87-13 **h)** Website: <http://tulamash.ru> **Modifications:** Listed on 24 Dec 2024

Justification: **a)** JSC VNIIR-Progress is a Russian research and development institute that specialises in the production of advanced electronic warfare (EW) systems, focusing on technologies for signal-jamming and intelligence-gathering. One of its key products is the Kometa antenna, which is designed to disrupt communications by interfering with radio, satellite and radar frequencies. The Kometa-M variant, a type of Kometa antenna, used in devices such as the Orlan-10 unmanned aerial vehicle and guided bomb kits, employs adaptive antenna arrays to enhance resistance against electronic interference, ensuring accurate targeting even under adversarial EW measures. Weapons that incorporate Kometa antennas manufactured by JSC VNIIR-Progress are extensively used in Russia's war of aggression against Ukraine, and therefore JSC VNIIR-Progress is supporting actions which undermine the territorial integrity, sovereignty and independence of Ukraine. **b)** JSC VNIIR-Progress has collaborated extensively with Russia's Ministry of Defence, significantly increasing production of navigation and electrical systems for military equipment, including tanks, ships and EW systems. The Kometa-M module, originally designed to protect drones from EW, is now being adapted for unguided bombs to improve precision using GPS and other satellite data. In addition, JSC VNIIR-Progress participates in high-value government contracts, such as supplying electronic devices to the Ministry of Industry and Trade of the Russian Federation. **c)** JSC VNIIR-Progress is therefore supporting materially and benefitting from the Government of the Russian Federation, which is responsible for the illegal annexation of Crimea and the destabilisation of Ukraine. **Other information:** **a)** Type of entity: Joint Stock Company **b)** Place of registration: 428903, Russian Federation, Chuvash Republic, Cheboksary, pr.
